PROFESSIONAL PROFILE

Results-driven Full Stack Software Developer with 5+ years of professional experience in backend/frontend development, API design, and cloud technologies. Demonstrated expertise in **Node.js**, **Express.js**, **TypeScript**, and **modern JavaScript frameworks**, with a strong focus on code quality, testing, and maintainability. Currently pursuing a **Master's degree in Artificial Intelligence and Data Science**. Proven track record delivering scalable solutions for remote teams, implementing comprehensive testing strategies, and optimizing system performance.

CORE COMPETENCIES

- Full Stack Development (Node.js / TypeScript)
- REST API Design & OpenAPI Standards
- Docker & CI/CD Pipelines
- Blockchain & Web3 / Smart Contracts
- Database Design & ORM (Sequelize)
- Agile Methodologies & Remote Work
- AI Agents & Prompt Engineering
- Technical Documentation & Testing (E2E)

PROFESSIONAL EXPERIENCE

Mid-Level Software Developer Mar 2024 – Present

UNAM — National Autonomous University of Mexico · Remote

- Developed and maintained multiple **production applications** following Agile methodologies, code quality standards, and best practices.
- Engineered comprehensive **E2E testing suites**, ensuring system reliability and reducing production bugs across three key platforms.
- Designed and implemented **RESTful APIs with OpenAPI contract validation** via middleware, enabling seamless third-party integrations.
- Containerized applications with **Docker & Docker Compose**; established CI/CD pipelines to automate testing and deployments.
- Implemented **Sequelize ORM** for efficient database operations, optimizing query performance and data integrity.
- Key projects:** Ticket Substitution System, Check Visualizer, Gas Station Billing Platform.

Full Stack Developer Sep 2022 – Feb 2023

Eskala Group · Remote

- Executed complete development lifecycle: requirements analysis, design, implementation, testing, and deployment.
- Built a **NFT marketplace for real estate on Polygon blockchain**: designed smart contracts, crypto payment gateways, and backend integration.
- Integrated third-party APIs and implemented **encryption strategies** for secure data handling across responsive microsites.
- Deployed applications to production servers and blockchain networks, ensuring scalability and reliability.

ENTREPRENEURSHIP

Founder & Developer 2023 – Present

TiendaTap · [tiendatap.com](#) · Remote

- Built **tiendatap.com**: full-featured web application for online merchandise catalogs with **WhatsApp order integration**.
- Incubated under **"Juventudes con IDEA"** program, Tecnológico Nacional de México (TecNM / ITC) — Dec 2025.
- Designed the full product stack independently: frontend, backend, database design, and cloud deployment.
